ROLLER DERBY BASICS

General

Each Game or Bout lasts for one hour, divided into two 30 minute periods.

Each period consists of multiple "Jams", which last a maximum of 2 minutes.

Each Jam features: three Blockers, one Pivot, one Jammer

The Jam

The objective of each Jam is to score as many points as possible.

Points are scored each time the Jammer laps a member of the opposing team

One whistle blow begins play, with each team lining up as indicated

The 1st Jammer to clear the pack becomes the lead Jammer, and can end the jam at any point.

The members of each team attempt to prevent the opposing Jammer from passing, and help their own Jammer score points.
